Fraunhofer

TESTED[®] DEVICE

SOLIANI EMC
RA.30.600.600.LP
Report No. **SO 2403-1505**

Single product Particle Emission

Qualification Certificate

This is to certify that the product mentioned above, provided by

SOLIANI EMC S.r.l.
Como, Italy

has been awarded a Fraunhofer certificate TESTED DEVICE bearing the report number SO 2403-1505.

The Absorber RA.30.600.600.LP (color: blue) was assessed in compliance with ISO 14644-14. When operated under the specified test conditions, it is suitable for use in cleanrooms fulfilling the specifications of the following Air Cleanliness Class according to ISO 14644-1:

Test parameter(s)	Air Cleanliness Class
Structure-borne noise = approx. 50Hz	1
Overall result	

It should be noted that cleanrooms of Class 1 to 5 according to ISO 14644-1 have a higher filter occupancy, which may restrict the use of absorbers.

Surfaces and edges may not become damaged during assembly because this would also have a negative influence on the particle emission behavior of the absorber elements when in later use.

Please note: Transport damages, incorrect installation, aging behavior etc. can influence the test result.
